| Standard or 2/1 GF Players | 126 |
| Precision Players | 127 |

AN EASY, EFFECTIVE STRONG CLUB SYSTEM

In this book, Ken Rexford introduces the strong club relay system with canapé bidding that he played successfully for years. His approach is novel, but it is also one that is easy to learn and play. Most importantly, the entire system fits within the ACBL General Convention Chart. As with his first book, *Cuebidding At Bridge*, Ken Rexford spends much time explaining the theory and thinking behind canapé sequences, so that the reader will understand the approach rather than simply memorizing a list of conventions.

The author also includes a basic scheme for converting your system from Precision to Canapé, or even from Standard all the way to Canapé, all in easy steps. For those who are intrigued but intimidated by Canapé, this extra material should help to ease the transition.

KEN REXFORD (Ohio) is a bridge player with 30 years of tournament experience. His first book, *Cuebidding at Bridge: a modern approach*, and his blog, www.cuebiddingatbridge.blogspot.com, introduced the bridge world to a modern approach to Italian cuebidding. Using more than conventions and definitions, he introduced the reader to the theory and thinking you need to actually use cuebidding to your advantage.
