A. Summary of 1♣ responses and rebids	108
B. Summary of 1♦ responses and rebids.....	113
C. Point counting in Toucan Club	115

INTERMEDIATE/ADVANCED

“The one-club sequences are powerful. Transfer auctions are valuable because they allow the partnership an extra step to exchange more information. Responder knows the extent of a major-suit fit very early in the auction. And finally, it can be difficult to defend accurately against a one club opener because the normal distributional clues that the defenders have in standard bidding may be absent.”

ACBL Bridge Bulletin (March 2021)

Toucan is a modified 2/1 system using a natural but short club opening with transfer responses to it. *Toucan Club Complete* is a much-expanded version of the original *Toucan Club* book, and contains many example hands and auctions.

100% of the author royalties from this book will be donated to the ACBL Educational Fund.

RON BEALL (Bellingham, WA) is a Diamond Life Master who has won dozens of Flight A Regionals and one major National event (six-session NABC+ Open Swiss Teams). He is the creator and author of *Enhanced Precision* (Master Point Press), and has written several articles for the *ACBL Bulletin* and *The Bridge World*.

RON WOODARD (Olympia, WA) is a well-known Emerald Life Master in the Pacific Northwest who has won or placed second in over fifty Flight A Regional team and pair events.
