Opening Leads	185
Shooting	192
Tactics	196
Who Knows? High-level Decisions and Freak Hands	198
<i>10: Final Quiz</i>	215

EVERY DECISION COUNTS

Most players would agree that matchpoints is harder than IMPs — it's certainly different. Yet many players approach the two forms of scoring in the same way. In this book, the author explains the differences in approach, the whys and wherefores of the right way to bid, play and defend at matchpoint scoring for optimum results.

BILL TREBLE (Winnipeg, Canada) is the author of three previous books, including the award-winning *Defending at Bridge: A first course*. He has won the Canadian Open Pairs championship on two occasions.
